EDUCATION

Indian Institute of Technology Kanpur — B.Tech, Computer Science and Engineering — CPI: 8.7/10

EXPERIENCE

SDE Intern, Flipkart

May-Jul 2025

- Engineered a caching layer in Java that reduced average API latency by 32% across 5 microservices.
- Optimized the order-matching pipeline, increasing throughput from 4,000 to 11,000 requests/sec.
- Worked on the checkout service and helped the team with testing.

PROJECTS

Distributed Task Queue (C++, Docker)

- Built a distributed task queue in C++ using a Raft-based consensus module, cutting job failure rate by 40%.
- Deployed on Kubernetes with Docker, scaling to 200 concurrent workers.

GSoC 2025 — Open Source Contribution

- Contributed to an open-source Python data pipeline as part of GSoC, merging 14 PRs improving test coverage by 25%.

POSITIONS OF RESPONSIBILITY

- General Secretary, Science and Technology Council
- Team Head, Aerial Robotics

ACHIEVEMENTS

- Codeforces Specialist — rating 1650, top 10% in Div 2 rounds.
- Secured Rank 1 in Inter-IIT Tech Meet coding contest among 2000+ participants.

COURSEWORK

Data Structures and Algorithms, Operating Systems, Computer Networks, Database Management Systems

SKILLS

C++, Java, Python, React, Docker, Kubernetes, SQL, AWS
